

Lappset Memo

Interactive play pillars

Lappset Memo elevates playful learning with its seven 360° LED touch screens, providing an engaging, interactive experience. Its games promote social skills like teamwork and encourage healthier habits through movement. Customizable for various learning experiences, Memo supports 21st-century skills, STEM learning, and active play. Through the online platform, owners can download different games offering a range of experiences.

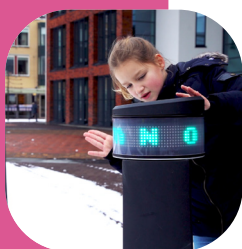

1. Holistic Learning Approach

Interactive gaming is an exciting way to engage and challenge players of all ages! From math conundrums to spelling challenges, there's never a dull moment. Memo games provide the perfect opportunity for minds to let their creativity run wild while also working together as teammates. It's the ultimate combination – learning and having fun at the same time!

2. Gaming Variety

Memo stands out with its extensive collection of games, including educational ones covering math, science, language, and more, providing a rich learning experience. Memo also offers active games like Tag and Switch, and storytelling games, encouraging physical activity and emotional expression alongside learning.

3. Developed for the outdoor area

Our interactive playground equipment is designed with one main goal: to give our customers peace of mind. We frequently receive questions about our products' durability against vandalism, the maintenance they need, and their suitability for harsh weather conditions. We've carefully crafted our products to exceed your expectations.

Examples of games

Tag

Six players compete to tag the most pillars in their color. With each tap, your color jumps to a different pillar.

ABC - Capitals

Touch the letters as fast as you can in the correct order of the alphabet without making a mistake.

Memory

Find two of the same pictures in the same color. Remember where all the pictures are.

Runner

Two teams, red and blue, race against each other to complete two complete laps. Touch the display in your color on the pillar to reach the finish line.

Memo creates interaction

Discover the world of interactive play with Lappset Memo!

This interactive playground equipment features seven pillars, each with 360° LED touch displays and minimalist arcade visuals. Enjoy hours of play with a variety of games, from tag to binary counting, catering to every type of player. These games not only entertain but also promote social skills like teamwork and encourage physical movement, supporting healthier habits. Perfect for all ages, Memo transforms any space into an engaging and educational playground.

Memo's seven pillars create an engaging and interactive display from every perspective. Moreover, the constant movement encouraged by Memo promotes healthier habits.

Did you know that

The Lappset Memo has over 74 games, most of them educational, making it a fantastic addition to any playground aiming to create a fun and educational environment!

Lappset Dashboard for more fun

Our online tool gives you complete control over your playground equipment. Our dedicated design team constantly crafts new games, ensuring a fresh experience.
